Save the Babies.

NEANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher. Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria

in many cases and have always found it an efficient and speedy remedy." Dr. Frederick D. Rogers, of Chicago, Ill., says: I have found Fletcher's Castoria very useful in the treatment of children's complaints.

Dr. William C. Bloomer, of Cleveland, Ohio, says: In my practice I am glad to recommend your Castoria, knowing it is perfectly harmless and

Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm." Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious

to the most delicate of children." Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria, is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remar. the remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency

NE afternoon while we were in Los Angeles, mother and I decided that we must spend at least a few days at the great exposition in San Francisco. So we packed our grips in a hurry, took a train overnight and were there in the morning. The only regret I have at present is that I could not have spent weeks there, going through the marvelously constructed buildings, which were gorg-structed buildings at the great through the structed broadcast over the country.

I guess I must have received dozens of letters asking me: "Dear Miss Pickford, won't you please tell me if my favorite moving-picture actor. Mr. Francis X. Bushman, is married, as I have been intending to write a letter to him," etc.

Now that you know where to find him, why not write to him direct and ask him? He may be able to answer you more faithfully than I ed with beautiful, interesting and and divulge more secrets about his antique treasures of art.

It seemed to me there were thousands and thousands of people on they were all concentrated upon moving in a slow or swift body toward one spot, a grandstand on one ward one spot, a grandstand on one spot the large spot that afternoon and that Madeline F.
